We could do with some sort of traffic calming measures on New Cheveley Road. I lead a campaign back in 2000 to get something done as we have the park and shop with idiots using the road as a race track. Just this morning another 6 residents have had their cars badly damaged by a RTA and I bet speed played a major part. Back in 2000 we were told we couldn't have traffic calming measures as it will upset the horses on the boxes which use the road, sad when a horse is put before a child at risk, yet all the studs have speed bumps, could we not have some of those special ones which do not upset the horses? With traffic parking on both sides of the road and on the path as well, add a mixture of regular speed it is not going to be long before someone is seriously injured or a child gets killed.

Consultation launches on the county's Green Access Strategy

Communities are being invited to have their say on the Green Access Strategy - Rights of Way Improvement Plan as part of a ten-week consultation held by Suffolk County Council (SCC).

The county council, under the Countryside and Rights of Way Act (2000) is required to put together this plan which identifies changes that will improve rights of way provision for walkers, cyclists, horse riders and those with mobility problems.

The plan, which looks at rights of way access up until 2026, details why green access is so relevant to Suffolk's population and its visitors, and it focuses on how green access can benefit quality of life. SCC built the strategy on previous work, research and engagement with a range of consultees, such as the Suffolk Local Access Forum, parish councils, local businesses, landowners, users and non-user groups.

The public consultation opened on the 8th July 2019 and runs until Friday 20th September. The consultation will provide the council with final feedback before the plan is presented to cabinet later this year.

Councillor Mary Evans, Suffolk County Council's Cabinet Member for Highways, Transport and Rural Issues said;

"The Green Access Strategy represents our commitment as a council to make the very most of the rights of way network and to provide our residents, our business community and our visitors an array of different and innovative opportunities to use, enjoy and benefit from green access."
