agreed:

F/20/03/5.01 Resolved
That item 11 Business Continuity Plan be brought forward.

F/20/03/6 **BUSINESS CONTINUITY PLAN**

Due to the fast changing nature of the information coming from government, NTC will need to consider its future functionality as it may not be able to convene meetings which is currently the only legal way for decisions to be made. As people aged 70 plus have been asked to self-isolate, some councillors will be required to follow this advice. As current legislation does not allow for decisions to be made remotely, NTC will need to consider giving more delegated powers to the Acting TCM during this period of uncertainty. Staffing details during this time have already been considered at a recent informal workshop meeting and the Acting TCM encouraged this Committee to endorse those suggestions and recommendations. This is an opportunity for NTC to develop a plan to support groups and organisations who will be supporting the community at this difficult time. Voluntary agencies will need to be identified and practical and/or monetary support could be provided under LGA 1972, section 137, although this would be restrictive. Alternatively, the Acting TCM awaits clarification from SALC to establish if NTC could use her CILCA qualification to adopt the General Power of Competence. NTC should assume that it may not be able to meet after 23/3/2020. With this in mind, the following was agreed:

F/20/03/6.01 Recommendation
That NTC allocate £10,000 from the General Reserve to a 'Coronavirus Support Fund' in support of the vulnerable in our community; and to recommend to Council adopting the General Power of Competence which would unlock the potential for further options.

F/20/03/6.02 Resolved
That NTC set up a Coronavirus Support Working Group to look at what practical or financial support it can provide to organisations and groups supporting the vulnerable in our community. Cllrs Drummond, Hood, Kirk and Kerby volunteered to join the Working Group which would initially meet on 17/3/2020 at 5.30pm and an invitation would be extended to all Councillors and any relevant organisation representatives.

Cllrs Kirk and Hulbert and a member of the press left the meeting.

F/20/03/7 **SUBMISSION OF SCHEDULES OF PAYMENTS FOR INFORMATION CB1, CB2 AND CB4 FOR (FEBRUARY 2020)**

Members reviewed CB1, CB2 and CB4 and the following was agreed:

F/20/03/7.01 Recommendation
That the ratification of the schedules of payments for the period 01/02/2020 – 29/02/2020 (Cash Book 1 and 2) be received and adopted.

F/20/03/8 **BANK STATEMENTS**

The Chairman of the Finance & Policy Committee confirmed that the bank reconciliations relating to the end of 29/02/2020 (month 10) for the Town Council's Current, Petty Cash, Salaries and Barclaycard Cashbooks had been countersigned by the Chairman of the F&P Committee.

F/20/03/9 **INCOME & EXPENDITURE**

RFO advised that the Snack Shack half-year rental fees have not been received and it had not been possible to make contact with the contractors. Due to concerns regarding the hygiene and cleanliness of the kiosk, a check will be made with West Suffolk to check on the hygiene certificate and discuss with the Environmental Health Team. If contact has not been made by 23/3/2020, the lock will be changed, all food stuffs and equipment will be removed and disposed of and a new operator will be sought.

The Income and Expenditure reports for February 2020 were received and noted.

F/20/03/10 **TO REVIEW MEETING START TIME**

Members reviewed the meeting start time and the following was agreed:

F/20/03/9.01 Resolved

That the start time of the F&P Committee meetings be changed to start at 7:00pm.

F/20/03/11 **NTC LAND ADJACENT TO FIELD TERRACE ROAD**

RFO advised that annual rent for the land adjacent to a property in Field Terrace, Newmarket, is currently set at £75. The lease details will be examined and advice taken regarding a review of rent and terms of the lease.

F/20/03/12 **PAPER POLICY**

An NTC Paper Policy will be considered in due course to address paper, time and money saving measures. This will be for the new council to consider post-May.

F/20/03/13 **HEALTH AND SAFETY MONTHLY REVIEW**

The Health and Safety Monthly report was received and noted.

F/20/03/14 **CORRESPONDENCE**

None noted.

F/20/03/15 **DATE OF NEXT MEETING**

NEWMARKET TOWN COUNCIL
RISK MANAGEMENT SCHEME

Introduction
This document sets out the framework on which risk management processes at Newmarket Town Council are based. This framework should assist in ensuring that a consistent approach is taken across the Council for the identification, assessment and evaluation of risks, and for ensuring that actions are proportionate to identified risks, thereby efficiently and effectively utilising resources and maintaining a balance between risks and controls. Risk management will strengthen the ability of the Council to achieve its objectives and enhance the value of services provided.

Risk Management
Risk – '*Risk is the combination of the probability of an event and its consequence. Consequences can range from positive to negative'.*

Risk Management - *'Process which aims to help organisations understand, evaluate and take action on all their risks with a view to increasing the probability of success and reducing the likelihood of failure.'* [Institute of Risk Management (IRM)]
Risk management is an essential feature of good management and applies to all aspects of the Council's business.

There is an Audit requirement under the Accounts and Audit (England) Regulations 2015 s.3 to establish and maintain a systematic strategy, framework and process for managing risk. Risks and their control will be collated in a Risk Register. A statement about the system of internal control and the management of risk will be included as part of the Annual Statement of Accounts and summarised in the Council's Business Plan.

Implementing the strategy involves identifying, analysing/prioritising, managing and monitoring risks.

Risks Types
Strategic Risk - long-term adverse impacts from poor decision-making or poor implementation. Risks causing damage to the reputation of the Council, loss of public confidence, or in a worse case statutory intervention.

Compliance Risk - failure to comply with legislation, or laid down procedures or the lack of documentation to prove compliance. Risks exposure to prosecution, judicial review, employment tribunals, inability to enforce contracts etc.

Financial Risk - fraud and corruption, waste, excess demand for services, bad debts. Risk of additional audit investigation, objection to accounts, reduced service delivery, dramatically increased Council tax precept levels/impact on Council reserves.

Operating Risk - failure to deliver services effectively, malfunctioning equipment, hazards to service users, the general public or staff, damage to property. Risk of insurance claims, higher insurance premiums, lengthy recovery processes.

Not all these risks are insurable and for some the premiums may not be cost-effective. Even where insurance is available, money may not be an adequate recompense. The emphasis should always be on eliminating or minimising risk. Risk can be connected to opportunities as well as potential threats.

Risk Identification – Identifying and understanding the hazards and risks facing the Council is crucial if informed decisions are to be made about policies or service delivery methods. The risks associated with these decisions can then be effectively managed.

Risk Analysis –Identified risks need to be systematically and accurately assessed using proven techniques. Analysis should make full use of any available data on the potential frequency of events and their consequences.

Risk Prioritisation - An assessment should be undertaken of the impact and likelihood of risks occurring, with impact and likelihood being scored Low (1), Medium (2) and High (3). The scores for both impact and likelihood are scored in this manner. Risks scoring 6 and above will be subject to detailed consideration and preparation of a contingency/action plan to appropriately control the risk.

Risk Control – Risk control is the process of taking action to minimise the likelihood of the risk event occurring and/or reducing the severity of the consequences should it occur. Typically, risk control requires the identification and implementation of revised operating procedures, but in exceptional cases more drastic action will be required to reduce the risk to an acceptable level.
Options for control include:
<u>Tolerate</u> – documenting a conscious decision after assessment of areas where the Council accepts or tolerates risk.
<u>Treat</u> – loss control measures are implemented to reduce the impact/ likelihood of the risk occurring;
<u>Transfer</u> – the financial impact is passed to a third party or by way of insurance. This is good for mitigating financial risks or risks to assets; <u>Terminate</u> – the circumstances from which the risk arises are ceased so that the risk no longer exists;

Risk Register –Details on the impact and likelihood matrix are included below. A summary is carried forward in to the annual Business Plan.
Health and Safety risks are assessed in a similar manner but are assessed, recorded and managed separately to the matrix below.

Risk Monitoring – The risk management process does not finish with putting any risk control procedures in place. Their effectiveness in controlling risk must be monitored and reviewed. It is also important to assess whether the nature of any risk has changed over time.
The information generated from applying the risk management process will help to ensure that risks can be avoided or minimised in the future. It will also inform judgements on the nature and extent of insurance cover and the balance to be reached between self-insurance and external protection.

Roles and Responsibilities -

<u>Councillors</u> – risk management is seen as a key part of the councillors' stewardship role and there is an expectation that Elected Members will lead and monitor the approach adopted. This will include: Approval of the Risk Management Strategy;
Consideration of the Annual Risk Assessment Matrix

<u>Proper Officer and Responsible Financial Officer</u>- will ensure that Risk Management is an integral part of any service review process, ensure that recommendations for risk control are detailed in service review reports and will lead in developing and monitoring Performance Indicators for Risk Management.

<u>Project Officers and Service Managers</u> – when developing projects or recommending service changes will ensure that risks are identified and the measures to eliminate or control risks are documented in agenda reports/briefing papers to be considered by Council and committees.

Employees – will undertake their job within risk management guidelines ensuring that the skills and knowledge passed to them are used effectively.

Role of Internal Audit – the Internal Audit Team provides an important scrutiny role carrying out audits to provide independent assurance to the Council. Internal Audit assists the Council in identifying both its financial and operational risks and seeks to assist the Council in developing and implementing proper arrangements to manage them, including adequate and effective systems of internal control to reduce or eliminate the likelihood of errors or fraud.

Training – Risk Management training will be provided to key staff. Councillors will receive appropriate briefings.
